CF&S

Welcome to CF&S!

Our highly skilled team of logistics professionals is always ready to assist you in shipping your cargo worldwide and ensuring its safe delivery to the required destination.

Facts

CF&S is an international transport and logistics group established in Tallinn Estonia, in 1997. Presently CF&S Group offices are located in Estonia, Latvia, Lithuania, Russia, Kazakhstan, Finland and Poland. The company has over 190 employees.

Aims & Mission

CF&S is a provider of wide-range logistic services. Its objective is to offer high quality and professional transportation services by sea, rail, road and air. Aiming to understand the requests and needs of our customers, we offer them flexible, efficient and competitive services.

Certification

The quality management system of CF&S has been approved by Lloyd's Quality Assurance and complies with the quality assurance standard EN ISO 9001:2015.

Container Transport

FCL & LCL Shipments

We use our vast expertise to manage your full-container loads (FCL) and less container loads (LCL). We arrange FCL contract management and LCL consolidation/deconsolidation to ensure the most competitive prices for customers.

Working with major ocean container lines enables us to achieve the best allocations, schedules and a full range of standard and special equipment:

- 20' and 40' Standard Containers
- 40' and 45' High Cube Containers
- 20' and 40' High Cube Reefer Containers
- 20' and 40' Open Top and Collapsible Flat Rack Containers suitable for intermodal transport
- tank containers

We work with you to achieve the outcome that best suits your needs.

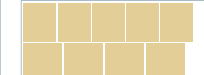

Globally Yours

We arrange project shipments on a global basis; the scope of the services we provide embraces all of the elements of the logistics chain from factory collection to delivery to the destination site.

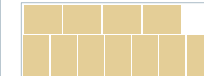

Container Stuffing Plan

To avoid problems such as cargo overflow or wasted space, it is essential for shippers to have a stuffing plan before cargo is loaded into containers.

20' Container

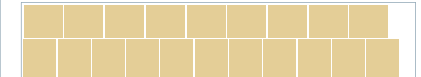

9-10 standard pallets 1000 x 1200

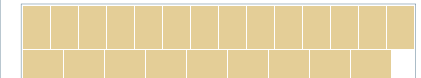

11 euro pallets 800 x 1200

40' Container

20-21 standard pallets 1000 x 1200

23-24 euro pallets 800 x 1200

Port Operations

With the co-operation of our worldwide network partners and other departments within CF&S, we offer a variety of services to our clients at the point of origin and destination:

- survey and quality control of cargo prior to loading into containers
- loading cargo into containers in terminals
- preparing customs documentation
- cargo insurance, issuing of Through Bill of Lading etc.

Road Transport

Experience & Knowledge

Our range of expertise is wide, starting from small parcel shipments and ending with over-dimensioned loads.

We use our own dedicated trucks as well as our partner network all over Europe — which gives us possibility to provide our clients the right amount of truck units according thier needs.

Whether your cargo is big or small, we are ready to offer you the most suitable freight conditions in very different directions at competitive prices.

Control at Every Stage

- experience and knowledge of our employees allows us to organize all kinds of transport
- our trucks are equipped with satellite navigation and tracking systems, allowing us to check their positions online
- all of our drivers have passed dangerous goods training and have valid ADR certificates, except for explosives

Railway Transport

Special 80' (24m) Rail Platforms

80' rail platforms are special rolling-stock that can be used for the transportation of containers, high & heavy OOG cargo and various types of wheeled machinery of different sizes.

The platforms are specially equipped with wooden floors, thirty fixing points on the sides and four end holders to secure different types of machinery during transport: combine harvesters, tractors, crushers, bulldozers, excavators etc.

Up to two 40' or four 20' containers can also be loaded on one platform.

We offer freight forwarding by rail in all directions where rail gauge is 1 520 and 1 435 cm. All of your freight requests are welcome and highly appreciated.

Main Activities

- Our main activity in Estonia is concentrated at the South Port in Paldiski, connecting all ports of the world via well-known European ports of Harwich, Bremerhaven, Cuxhaven, Lübeck, Antwerp, Tilbury, Gdynia, Stockholm, Kappelskär, Helsinki and Turku.
- Our main activity in Latvia and Lithuania is concentrated at the port of Riga, Ventspils and port of Klaipeda, respectively, which are important gateways for transit shipments to Belarus and Central Asia.

Railway Bordercrossing

CF&S boasts lengthy experience in organizing transportation of out-of-gauge, heavy-lift, single-wagon load and container items by railway via different border crossing.

We offer the following services at the border crossing: preparation of cargo fastening schemes for platforms/railcars, obtaining approval of schemes, transloading and fastening of equipment/ cargo and process monitoring with a subsequent survey report.

Manzhouli – Zabaykalsk, Brest – Malaszewicz, Khorgos – Altynkul, Dostyk – Alashankou, Chop – Zahony.

Our Advantages

- more than 20 years' experience on the market
- highly skilled and professional staff
- own fleet of new closed wagons, capacity 158 m³ and 161 m³
- own fleet of special 80' (24 m) rail platforms with wooden floor / model 23-469-07
- own fleet of 60' rail platforms / model 13-935A-04
- own fleet of 20'DC and 40'DC/HC railway containers
- direct agreements with Russian, Belarusian, Kazakh, Latvian, Lithuanian, Estonian Railways

Range of Services

- all kind of railway transport between Baltic States, Finland, Russia, Belorussia, Ukraine, Georgia, Azerbaijan and other Central Asian countries, Mongolia
- arrangement and transportation of SOC and private containers, project and oversized, overweight, general cargo, machinery and foodstuff
- selling railway codes on the whole territory of railtrack gauge 1520 mm
- preparation of documents, including loading schemes
- timber products
- liquid fuel
- loading operations in ports and railway terminals

Sea Transport

Range of Services

- ships agency
- chartering
- forwarding of shiploads

CF&S at your service at all Estonian, Latvian, Lithuanian, Russian and Finnish ports 24 hours a day, 7 days a week.

Ships Agency

- CF&S has broad-ranging experience in providing agency services
- CF&S has experience with small river type vessels as well as big bulkers, tankers, navy ships, passenger ferries, cruise ships, super yachts, Ro-Ro vessels and more
- CF&S is the agent for Baltic Line, Mann Lines and Viking Line

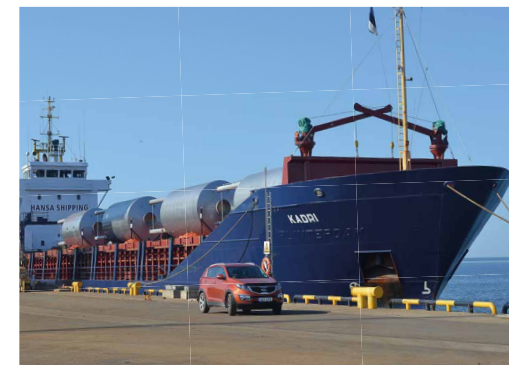

Additional Services

As additional services we offer goods insurance, verification of quality and quantity, labelling, radiation checks, monitoring of loading work and inspection of the cleanliness of cargo holds. These services are offered in cooperation with carefully checked and highly skilled first class suppliers.

Chartering

- CF&S is chartering vessels for solid bulk goods, general cargo and project cargo
- CF&S is mainly fixing vessels with a deadweight capacity of 1000-100,000 tonnes for carriage of cargo on the Baltic Sea, the North Sea and the Mediterranean
- CF&S will find a vessel that meets all of your requirements
- CF&S has long-standing chartering experience and good contacts with many ship-owners

Forwarding of Shiploads

We specialise in solid bulk goods (e.g. grains, peat and wood pellets) and project cargo (e.g. wind generators, large size storage tanks and steel constructions).

- organizing of sea, railway and road transportation
- loading and discharging in ports and railway terminals, handling in open and covered warehouses
- preparation of customs declarations and cargo documentation

High & Heavy Transport

Reliable & Responsible

CF&S is able to execute any large-scale project, including the transporting of:

- commercial and heavy vehicles
- agricultural and forestry machinery
- large boilers
- construction equipment
- generators and engines
- mining machinery
- wind converters
- boats and yachts
- turbines

We focus on high-quality, reliable, cost-effective solutions for our customers.

Area of Activity

CF&S specialises in the transporting of exceptional cargo by sea, road and rail to/from the Baltic States, Russia, Central Asia, other CIS countries, Mongolia and Finland.

Success You Can Rely On

We prepare and authorise special cargo-securing schemes and permits for rail deliveries, also using special heavy-weight rail transporters.

Our years of experience working on large-scale projects enable us to provide complete logistics solutions and to bring different projects to successful completion

For road deliveries we use a large fleet of special transport semi-trailers.

Air Freight

Trust & Reliability

As cargo sales agent CF&S arranges air transport in cooperation with:

- most major airlines in the world
- all airlines having connection with Tallinn airport

The CF&S team, boasting years of experience in the organisation of air transport, will find the solution that suits you best, whether that is a service with a separate plane (air charter), on-board courier or timely guaranteed delivery.

Our Air Freight Department will give your high-flying ideas wings!
We will fly your cargo safely to its final destination.

Our Advantages

With a worldwide network of partners, we offer door-to-door services covering more than 170 countries with over 1200 destinations on every continent.

- the constant and growing needs of our existing and new customers keep us alert and helpful
- we are specialists who will not turn down even the most difficult transport orders

Product Range

In addition to conventional industrial goods, we also ship following goods:

- cars
- hazardous
- oversized cargo
- temperature-sensitive
- agricultural equipment
- vegetables, foodstuffs, alcohol and more
- high-valued (precious metals, jewelry, money)

Warehousing & Distribution

Warehouse Complex

CF&S operates a warehouse complex in Tallinn in an ideal logistical location — in the direct vicinity of Tallinn ring road and the St. Petersburg highway.

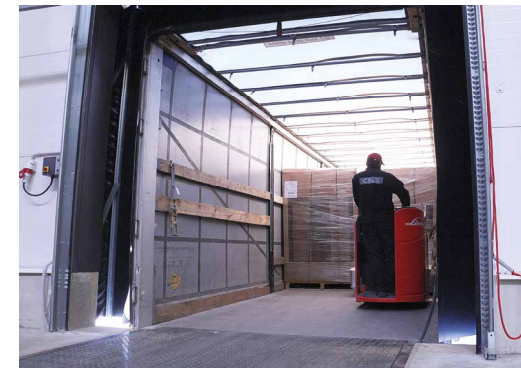

The availability of open storage areas enables us to store and handle non-standard cargo in the open air. The warehouse is equipped with storage racks for approximately 17,000 EUR-pallets with 25 loading ramps.

Constant research and innovative thinking ensure our competitiveness and customer-centred approach.

Warehouse Equipment

The warehouse complex has been equipped with new loading equipment manufactured by Linde with using WMS, EDI and customers portal for the faster data exchange with our customers.

The Complex Consists of

- heated warehouse
- temperature-controlled warehouse
- open-area storage
- customs terminal
- customs warehouse

Range of Services

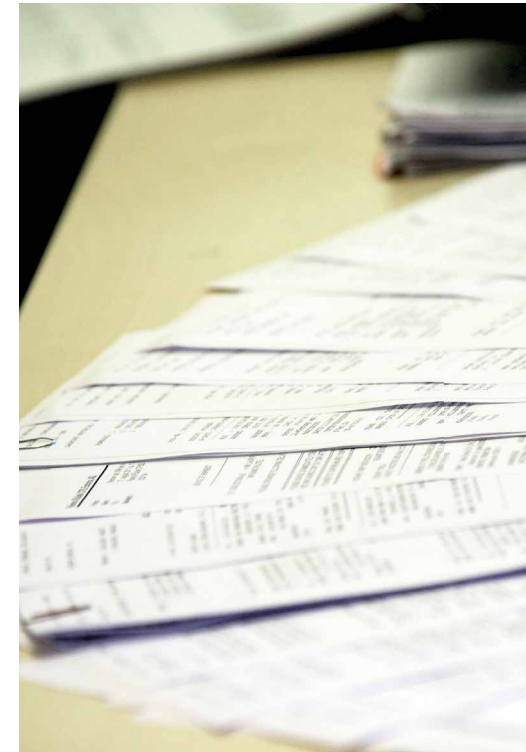

- loading/unloading
- labelling
- picking, packing and sorting of goods
- local distribution, collection and delivery in Estonia, Latvia, Lithuania, Finland and Sweden

Customs Agency

Our Advantages

- CF&S gives the opportunity to order all procedures and documentation related to customs from one place
- CF&S can offer customs agency services combined with all the logistics services, which makes the supply of goods/transport chain as convenient for customers as possible
- CF&S has all the necessary security and permits to guarantee the shipments smooth movement through European Union

Our qualified customs agents will gladly assist you with all customs procedures.

Customs Services

CF&S offers customs agency services and helps to carry out customs formalities in the European Union customs area and in communication with third countries:

- customs clearance for imported goods to Estonia and Member States of the European Union: preparation of import declarations and customer representation in the customs
- preparation of exports declarations from Member States of the European Union and their submission to customs
- preparation of transit declarations in Estonia and to other Member States of the European Union
- principal services (guaranteeing transit operations)
- extensions on the terms of payment from import taxes to our contractual customers
- preparation and confirmation of certificates evidencing the origin of goods: EUR1, A.TR., Certificate of Origin, T2L
- preparation of Intrastat
